

# Why you should choose

## **SUPERBAKrill™** and **no** other krill oil?

owns **two krill harvesting environmentally-friendly vessels** with a new one on the way

**Eco-Harvesting®**, is a unique trawl system, which **singles out unwanted by-catch** releasing them unharmed

Aker is the only supplier with **full control** over their entire **harvesting and production** process

HARVESTING AREA ——— 60° 29S 46° 05W

**100%**  
traceability

Partnered with the Antarctic and Southern Ocean Coalition (**ASOC**) and **WWF-Norway** to establish the Antarctic Wildlife Research Fund (**AWR**)

Certified as sustainable by the **MSC** and received an "A" rating from the Sustainable Fisheries Partnership (**SFP**)

The extraction technology **Flexitech™** removes unwanted constituents such as TMAO, as well as to **up-concentrate** krill's beneficial components: **omega-3, EPA / DHA, choline** and **phospholipids**.

 **SUPERBA™ 2** 

 **SUPERBABoost™ CAPS** 

both use **Flexitech™** technology.

There are more clinical trials on **Superba Krill oil** than any other krill brand on market today.

**Aker** is fully focused on krill, as is their core business.

Benefits the brain

Good for skin

Promotes cardiovascular health

Liver Health

Supports joint health

**Aker** continuously researches and works on product innovation. Is the largest contributor to **clinical research** supporting krill oil and its **health effects**.
